

WATCH THE VIDEOS IN THE ORDER BELOW FOR LOGICAL CONCEPT FLOW;

- 1) Learn C Variables; These are the foundation of programming. Variables are how you store and manage data
- 2) Learn variable scope
- 3) Format specifiers
- 4) Learn how to enter a user input
- 5) Learn C arithmetic operators
- 6) Logical operators
- 7) Arrays
- 8) String arrays
- 9) Learn 2D arrays
- 10) Initialize an array with user input
- 11) If statements
- 12) Nested if statements
- 13) Learn C for loops
- 14) Learn nested for loops
- 15) While loops in C
- 16) Switches in C
- 17) Learn break - continue
- 18) Functions in C
- 19) Learn function prototypes
- 20) Return statements in c
- 21) Learn C math functions
- 22) Learn typedef
- 23) Pointers
- 24) Structs in C
